PROFESSIONAL EXPERIENCE

Macquarie Group **Sydney, NSW**
Product Engineer, Corporate Operations Group *February 2024 – Present*

- Spearheaded end-to-end rollout of Zoom AI from proof of concept (POC), change paper approvals, user acceptance testing (UAT), production rollout, and post-implementation support, driving consistent adoption across 20,000+ employees through targeted enablement and stakeholder engagement.
- Drove the engineering, configuration and continuous improvement of enterprise collaboration solutions across Microsoft 365 and Teams, translating business requirements into scalable technical solutions while managing platform integrations, security, governance and service reliability for global users.
- Developed an AV asset lifecycle management framework from procurement through disposal whilst applying a design thinking lense, improving governance and audit readiness by identifying process gaps and recommending automation opportunities to reduce manual operational effort.
- Managed Windows Server vulnerability remediation and security compliance activities, partnering with infrastructure and security teams to address risks and maintain platform resilience.

Transport for NSW **Sydney, NSW**
Business Transformation Analyst, Sydney Trains - Network Rules *January 2022 – December 2023*

- Designed and deployed 10+ digital forms and automated safety workflow tools using PowerApps, improving operational efficiency by 30% across 10,000 staff.
- Evaluated business processes and pipeline frameworks to transform manual documentation into paperless automated workflows, aligning with corporate risk and governance standards
- Utilised Power BI to reconstruct raw data into reporting dashboards and presented to senior staff to assist in understanding how insights can drive the cost-saving aspect for NSW Transport across 100+ railway projects.

Deloitte **Sydney, NSW**
Technology, Strategy & Transformation Consultant *November 2021 – December 2021*

- Storyboarded the vision, strategy, and roadmap of the wide-scale transformations of existing IT infrastructure and operations and aligned technological changes with business goals, exceeding client expectations by 50% and identification of all the pain points in client feedback.
- Collaborated with senior leadership to contribute to strategic planning of technology direction and defined the target state of key applications into categories of decommission, retain and uplift to optimise the overall architecture of the main business system within the public sector, driving a 20% increase in the internal business.

WooliesX (Woolworths Group) **Sydney, NSW**
Sales Development Representative *August 2021 – November 2021*

- Prospected and qualified new sales leads to support the Sales Acquisition Team, exceeding relevant metrics and KPIs by 40% performance targets.
- Conducted research on various companies and contacting relevant stakeholders to execute acquisition plans, achieving steady streams of revenue with a minimum of $80,000 for every prospective client.
- Collaborated with cross-functional teams including IT and marketing to create training materials for sales enablement employees, and uphold data hygiene within the Salesforce CRM system to boost efficiency for users across all departments, resulting in a 20% process efficiency.
